# COOPER CLINIC: YOUR PARTNER IN PREVENTION

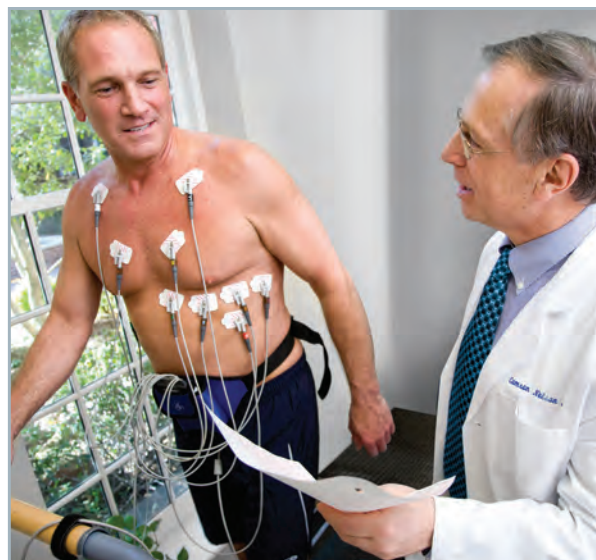

For more than 45 years, Cooper Clinic has maintained its reputation for providing comprehensive preventive exams across the globe.

Top executives from more than 350 corporations and health-conscious individuals worldwide come to Cooper Clinic for their annual preventive health exams; realizing that early detection and prevention measures are the first steps to living a longer, healthier life.

Cooper Clinic provides patients with an individualized, in-depth picture of their health, an action plan to improve it and their test results—all in less than a day.

*“My company is stronger because Cooper Clinic saved my life when I thought I was healthy. My Cooper Clinic exam revealed I needed quadruple heart bypass surgery and that I had renal cell carcinoma, which required the removal of my right kidney.”*

— Bart Mize, Vice President, 21st Mortgage Corporation
